// SUMMARY

I'm a passionate individual who admires programming and enjoys learning. What drives me is experience and trying something new in the tech field. In my studies, I did a module called Advanced Database which made me realize my passion for data and analytics. I would like to pursue a career in data science.

// WORK EXPERIENCE

Unversity of Johanneburg
2021 – 2021

Computer Science Research Student Assistance
+ Research on phonetics in Sesotho
+ Data gathering and Analysis
+ Developing an Algorithm in python

Unversity of Johanneburg
